## Key Insights

1. **Overall:** sales are $2.30M and profit is $286.41K, a 12.5% margin across about 5,000 unique orders.
2. **Regions:** West leads with $0.73M in sales and a 14.9% margin. South is lowest at $0.39M, and Central has the weakest margin at 7.9%.
3. **Categories:** Technology is the best performer, with $0.84M in sales, a 17.4% margin and 51% of all profit. Copiers is the top sub-category at $56K.
4. **Furniture:** it sells well ($0.74M) but earns only a 2.5% margin, and it loses money in Central (-1.8%).
5. **Growth:** sales rose 51.5% from 2014 ($484K) to 2017 ($733K), with 2017 the strongest year.

## Risks

1. Furniture earns a 2.5% margin. Tables lose $17.7K and Bookcases lose $3.5K.
2. Five states lose money: Texas (-$25.7K), Ohio (-$17.0K), Pennsylvania (-$15.6K), Illinois (-$12.6K) and North Carolina (-$7.5K). Together that is $78.3K, or 27% of total profit.
3. Technology produces 51% of profit, so the business depends heavily on one category.

## Opportunities

1. Sales have risen every year since 2015, and 2017 is the best year on record.
2. Central has a 7.9% margin against West's 14.9%, so closing that gap would raise profit.
3. Corporate ($0.71M) and Home Office ($0.43M) are small next to Consumer ($1.16M), leaving room to grow both.

## Recommendations

1. Cap Furniture discounts (17% on average) and reprice Tables and Bookcases.
2. Review pricing, discounts and shipping in Texas, Ohio, Pennsylvania, Illinois and North Carolina before running new promotions there.
3. Keep Copiers, Phones and Accessories well stocked and bundle them with other products to spread the profit base.
4. Copy West's pricing and product mix in Central and South.
5. Target Corporate and Home Office customers, and stock up ahead of the September to November sales peak.
